JAFAR SADIQ P A

MERN Stack developer

Kasaragod,kerala   +91773683112   jafarputhiry@gmail.com   https://github.com/jafar-ctCl

Professional Summary

Self-taught and highly motivated MERN Stack Developer with basic experience in building web applications using **MongoDB, Express.js, React.js, and Node.js**. Comfortable with writing clean code, making simple user interfaces, and connecting front-end and back-end. Quick learner with a strong interest in web development. Looking for a chance to work on real projects and improve skills further.

Technical Skills

Frontend – HTML5, CSS3, JavaScript, React.js, jQuery

Backend – Node.js, Express.js, REST APIs

Database – MongoDB, Mongoose,MySQL

Tools & Technologies – Git, GitHub, VS Code, Postman, NPM

Others – Basic understanding of deployment (Vercel,Render)

Projects

Department Management System

Tech Used: Handlebars(HBS), Bootstrap, jQuery, Node.js, Express.js, MySQL

A web-based system to manage academic department tasks like timetables, attendance, student performance, and communication between admin, teachers, and students through role-based access.

- Admin/HOD can manage teachers, class timetables, events, and notice board
- Teachers can add students, mark attendance, and enter/view student marks
- Students can view timetables, full attendance records, attendance percentage, marks, and submit absent reasons
- Role-based login system with separate dashboards for Admin, Teachers, and Students
- Dynamic views rendered with Handlebars (HBS) and interactivity handled using jQuery

E-Commerce Web Application

Tech Stack: Node.js, Express.js, MongoDB, React, Bootstrap

A basic online shopping platform built using the MERN stack , allowing users to browse products, manage a shopping cart, and place orders.

- User authentication with login, signup, and session management
- Product listing with category filters and product details view
- Add to cart, update quantity, and remove items functionality
- Order placement with basic checkout flow
- Admin panel for managing products, categories, and orders

Education
